The Council suspended the regular order of business and accorded the privileges of the floor to the committeemen, after the reading of a resolution offered by Robert Gilliam, Jr., providing for the appropriation by the Council, the Board of Aldermen concurring, of \$5,000 for the purpose of securing the aid and co-operation of the State and Federal governments and other people in opening and ornamenting a national battlefield park. The resolution further provided for the appointment of a committee of two Councilmen and one Alderman, to be known as the Battlefield Park Committee, to whom the appropriated money shall be paid, to be used by it for promoting the establishment of such a park.

Sharp Debate Percipitated.

The business meeting of the Council dealt mainly with the making of appropriations for expenses in the different municipal defartments and with the disposition of resolutions, petitions and other communications. A sharp debate was precipitated by the offering of a resolution by W. G. Stratton, providing for the use of \$14,000 out of the \$75,000 secured by a recent bond issue for improving streets, roadways, to renew and improve water pipes, gas mains and other ugderground structures on public streets. This was strongly opposed by C. W. Bland, of the Finance Committee, on the ground that no part of the bond issue money could be diverted from the specific purpose of roadways, pavements for which the issue was made. Mr. Stratton stated that sue was made. Mr. Stratton stated that on several streets the improvement of underground structures was impera-tive, but that the Improvement Com-mittee had no money for thet pur-pose, and on his motion the resolution was referred to the Finance Committee An ordinance closing poolrooms from midnight until 5 o'clock in the morning was unanimously passed.

Turner was arrested in this city in July, 1906, on a warrant sworn out by S. T. Meacham, manager of the Chesterfield Manufacturing Company, charging him with procuring labor without a license. May Go Outside for Jury.

It seems safe to say that the case will never go to trial before a jury composed of citizens of Nelson county. Indeed, it is probable that it would be impossible to secure a jury from that county on account of the standing of both of the families that will be connected with the trial. Men who are competent for jury service in Nelson county are, it is believed, connected with either or both of the families by ties of relationship or friendship in such a manner that would almost preclude the selection of a jury to sit in the case.

Whether there will he a motion for a change of venile or a change of venile to the trial that the state of the state of

Whether there will be a motion for a change of venue or a change of venie cannot be forecast at this time, but it seems almost certain that a jury will be asked for from a county other than Nelson, or that an effort will be made to have the case sent to another county for trial.

The case will, it is expected, be brought to the attention of the grand jury at the May term of the Circuit Court of Nelson county, which will convene at Lovingston on May 27th. There is hardly a doubt but there will be an indictment, and then the arrangements will be made for the trial before a petit jury.

Another bold show-window robbery occurred on North Sycamore Street last night at some time after 1 o'clock. A brick was thrown through one of the big plate glass windows of W. Y.
